Single-use Plastic Free National Fair 2022

Why Should We Break Free From Single-use Plastics????

- Not biodegradable
- Mostly non-recyclable
- Harming our ocean
- Hampering Biodiversity
- Affecting Human Health
- Prime Cause of Climate Change

What are Single-use Plastics????

- One time use cup
- One time plate
- One time spoons
- PET bottles
- Plastic straws
- Plastic bags
- Sachet/Minipacks

How to Break Free From Single-use Plastics????

- Refuse Single-use
- Use Reusables like cloth & jute bag paper cup, reusable bottles
- Getting habituated in bringing your own things rather than buying one time use things

Come & See!
Single-use Plastic Free Living is Possible!

ESDO, TOWARD ZERO WASTE COMMUNITIES, gaia, #break free from plastic, PLASTIC SOLUTIONS FUND

On the 4th and 5th of June 2022, the Environment and Social Development Organization – ESDO hosted the country’s first ever National Single-use Plastic Free Fair at WVA Auditorium, Dhanmondi – 27, Dhaka. The goal of the fair was to show people that living without single-use plastic is possible by displaying alternatives to single-use plastic such as cloth bags, paper packaging, paper cups, paper straws, leaf packaging, leaf cutlery, and reused items, such as new clothing items made of used materials or new blankets made of used clothes. This also served as a forum for the entrepreneurs’ creativity was showcased. Additionally, through this fair, those who are willing to resist single-use plastics will learn where to find alternative items.

Press Briefing on

Reconsidering the decision of the existing supplementary duty withdrawal on all types of polythene bags and imposing a higher tax on single-use plastic products

On June 23, 2022, a press briefing was held on “Reconsidering the decision of the existing supplementary duty withdrawal on all types of polythene bags and imposing a higher tax on single-use plastic products” at the ESDO headquarters. This press conference brought attention to the fact that the proposed budget conflicts discord with the ban on polythene bags that is currently in effect, the recently published gazette that aims to phase out single-use plastic from coastal areas by 2023, and the Global Plastic Treaty, to which the government of Bangladesh has already committed.

ESDO

About ESDO

ESDO, the first organization in Bangladesh to prohibit polythene bags, is working tirelessly to make single-use plastic (SUP) illegal throughout the country. Continued advocacy, campaigning, and awareness-raising are vital aspects of the ban SUP project. ESDO is doing everything it can to ban single-use plastic in Bangladesh, and to that end, it has organized several programs every month.
